

## ARAK HADDAD CRYSTAL

Arak Haddad Crystal is produced by Eagle Distilleries in Jordan. Through a blend of ancient tradition and modern technology, Arak Haddad has re-created the drinking delight of the past.

**Production:** This unique arak is produced from the finest green aniseed, grown in the best combination of soil and climate. Made with neutral grape spirits and aniseed, then triple distilled in copper pot stills for exceptionally smoothness.

**ABV:** 50%

**Bottle Size:** 750mL

Ouzo and Arak are traditionally served with a small plate of a variety of appetizers called mezes, usually small fresh fish, fries, olives, and feta cheese. Arak can be described to have a similar taste to absinthe which is licorice-like, but smoother.

Pairs brilliantly with barbecued fish, vegetables, or white meats.

Enjoy with water & ice.
